

# YOU WISH: Port Melbourne

The choice between the beach or the pool is tough at this swish apartment.

The showpiece of this bayside trophy home is the elevated swimming pool, abutting the living area.

A wrap-around deck and terrace capture city views.

Nicholas Murray Architects and luxury builder Hansen Living are behind the design of this striking, contemporary Port Melbourne pad.

The lower level of 126 Heath Street includes a double garage, cinema or extra lounge room – with surround sound – and two luxury bedrooms.

Step up to the mid-level, and it spreads to open-plan living, dining and the kitchen.

Also on this floor is the main bedroom, with an enviably big walk-in wardrobe and a chic, minimalist en suite.

Above is a rooftop terrace, fitted with a barbecue and fridge.

Greg Hocking, of Greg Hocking Holdsworth, is looking after the campaign, and the auction is scheduled for Saturday. **EP**
